

## LAND USE-RECREATION

This is a composite map from several sources including local residents. See the technical documentation available through the Department of Natural Resource, Division of Geological and Geophysical Surveys for the detailed descriptions of mapped features, compilation methods and sources.

| | |
|---|---|
| BP | Berry Picking |
| BC | Beach Combing |
| BW | Bird Watching |
| CA | Camping |
| DS | Sled Dog Trails (used for established races) |
| FB | Float Boating (canoeing, kayaking, rafting) |
| HI | Hiking Areas |
| HR | Historic Recreation |
| HS | Hot Springs |
| M | Mountaineering |
| PI | Picnicking |
| PB | Power Boating |
| SK | Cross Country Skiing |
| SV | Scenic Views |
| SM | Snow Machining (used for established racing) |
| SW | Swimming |
| WA | Water Access (put-in/take-out points) |
| WW | Whale Watching |

NOTE: In addition snow machining occurs along virtually all natural areas accessible by this type of vehicle including maintained roads and trails. See the Infrastructure-Transportation and Infrastructure Trails maps for location of roads and trails.

The above recreational activities are shown as:

BP — Areas (minimum mapping resolution 640 acres)

DS — Lines

WA — Points (area of activity less than 640 acres)

NOTE: This map does not represent all areas where these activities may occur but only these places where an activity is known to occur. This map is intended for regional planning purposes; site-specific planning will require verification of actual recreational use.
