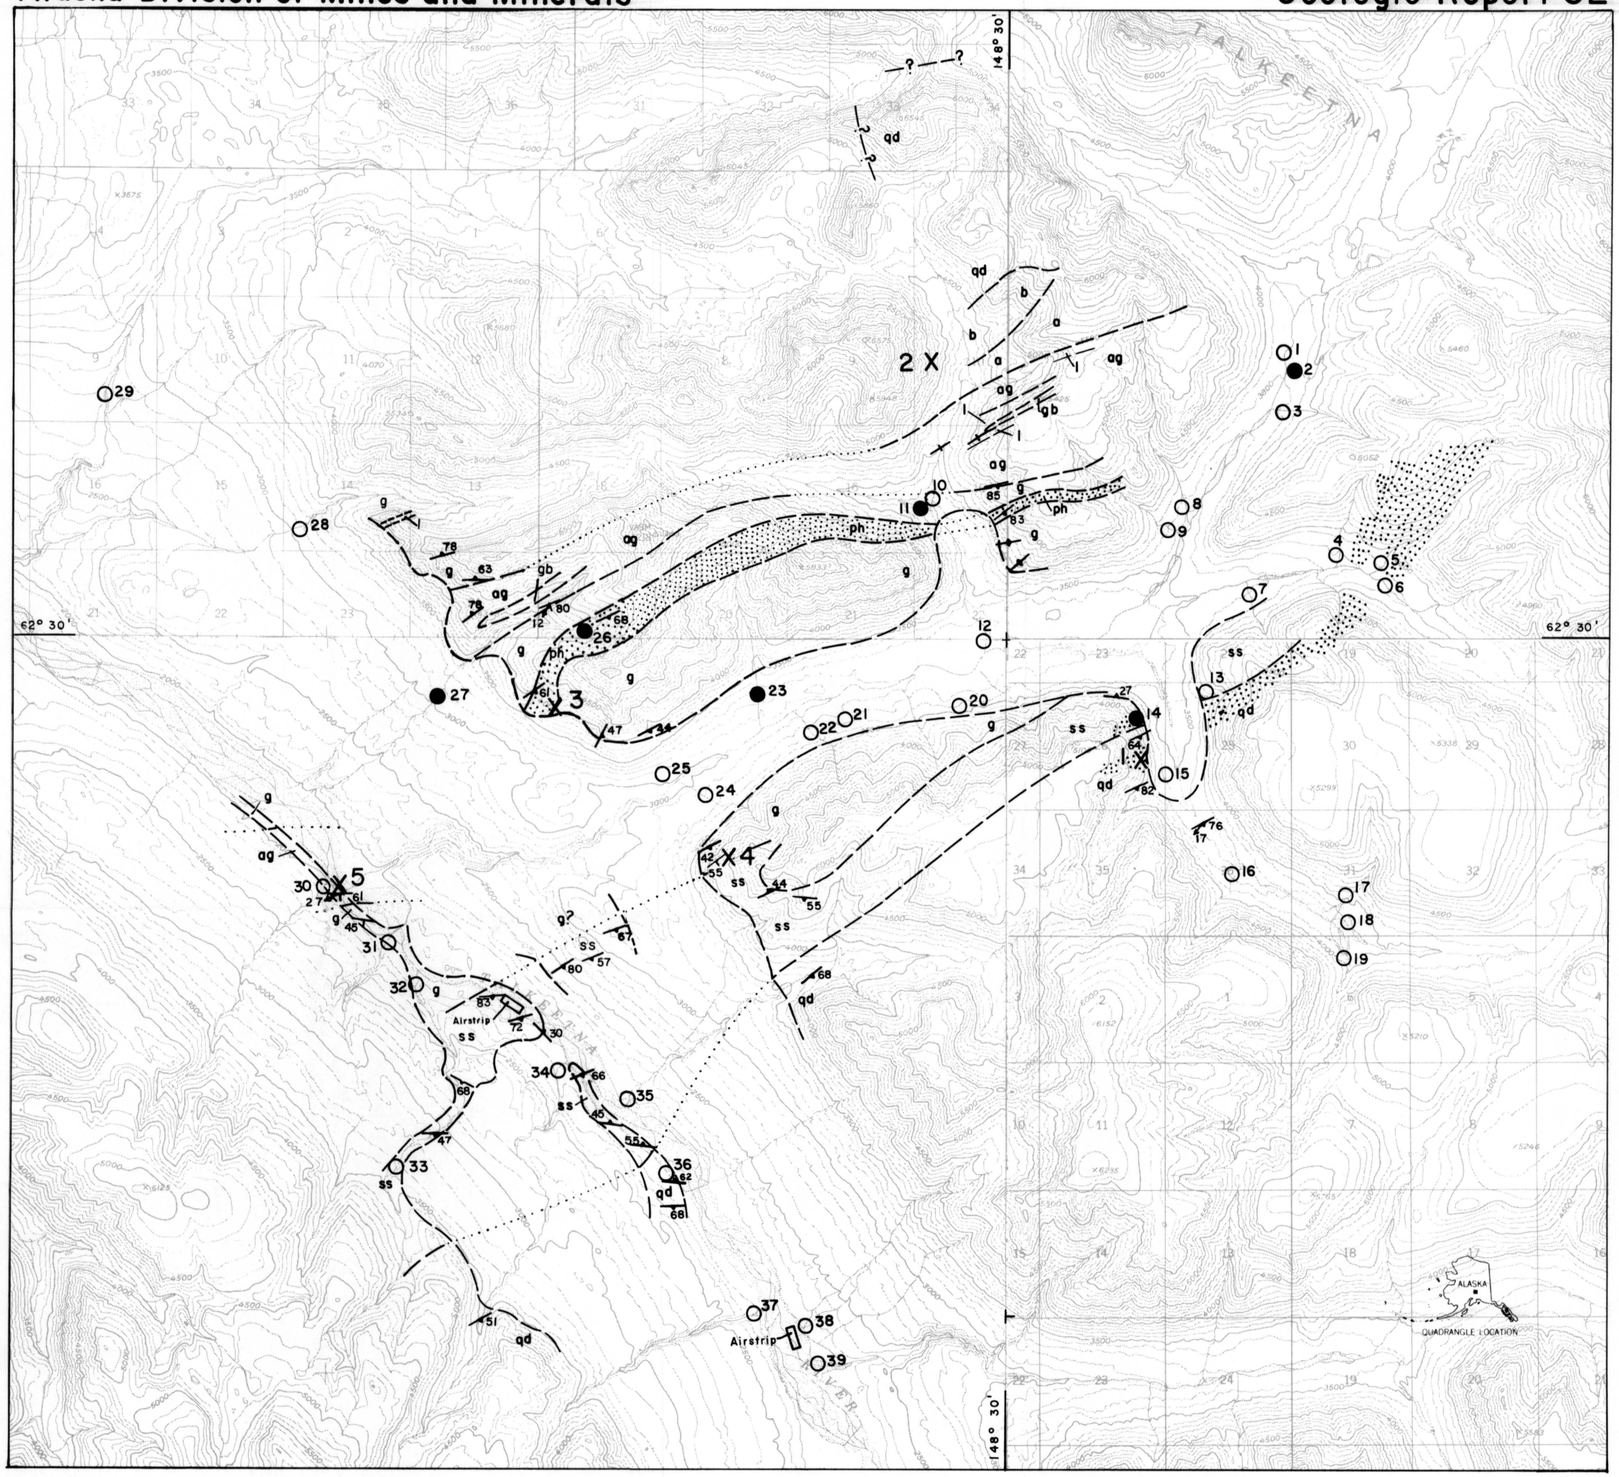
Figure 1

Geology of an area along the Talkeetna River

gb	Gabbro
qd	Quartz diorite gneiss
b	Basalt
a	Andesite
l	Limestone and marble
ag	Argillite, siltstone, and graywacke
ph	Pyritic phyllite
g	Greenstone and schistose greenstone
ss	Silicic schist and gneiss
	Pyritization and iron staining
	Strike and dip of bedding and axes of minor folds
	Strike and dip of foliation
X1	Mineral locality discussed in text
○12	Stream sediment sample and number
●2	Anomalous stream sediment

0 2 mi.

Topography from U.S.G.S. Talkeetna Mts. B-3, B-4, C-3, and C-4 quadrangles


Geology by Arthur W. Rose, 1966
